  -
- Number of Employees who have tested positive for COVID-19 = 25
- Number of Employees Returned To Work = 19

*Inspiring Wellness!*

Instead of reporting “recovery” as we have been, we will be reporting “discontinuing isolation”, which will be confirmed by two consecutive negative tests for residents in assisted living and skilled nursing.

The residents will move from the cohort unit back to their original room/apartment after their second negative test. Residents who have not had two negative tests yet will continue to be treated in the cohort unit. When we receive additional test results, we will send out an updated email.

As per Executive Order No. 20-013, we began testing our employees on Friday, May 22nd. We have tested over 200 employees and will conclude testing today at 5pm. Out of the approximately 200 results that we have received, thus far, there were five (5) employees who tested positive, and were asymptomatic. We will follow the guidelines for return to work by CDC and NJDOH. For those who have tested negative, a second test for negative results will begin tomorrow, and we will send an updated notice once those results are in. Please know that we continue to in-service all employees on infection control, we have a good supply of PPE, and follow protocols and guidance from the CMS, CDC and the NJ Department of Health.

We thank you for your continued cooperation and support and appreciate your partnership during these challenging times. If you have any questions, please call the HOTLINE at 856-679-4679 or Email @ [lgadministrator@lionsgateccrc.org](mailto:lgadministrator@lionsgateccrc.org). All messages will be responded to within 24 hours.

Respectfully,  
Susan Love, M.S., LNHA  
Chief Executive Officer
