

October 29, 2020

Dear Lions Gate Community Members,

In an effort to ensure all agency and private duty companions are in compliance with COVID-19 testing, please comply with the following:

- If you have a companion through an agency or private duty, please respond via email to lgadministrator@lionsgateccrc.org with answers to the following items:
 1. Is your companion private duty or from an agency?
 2. If the companion is private duty, list the name of the companion and phone number
 3. If you use an agency, provide the name of agency
 4. List the hours the agency/private duty companion works
- Effective immediately, ALL agency and private duty companions are to be tested WEEKLY, and results emailed to lgadministrator@lionsgateccrc.org. This is not a new protocol; however, not everyone has been compliant. If email is not an option, the companion must bring a copy of negative COVID-19 test results to the Concierge Desk on a weekly basis. Failure to

Inspiring Wellness!

present test results on a weekly basis will result in a companion being unable to enter the building until results are provided.

- Any visitors, including family members and other guests who have travelled to one of the states that are on the NJ Department of Health list and screening questionnaire, will not be able to visit, even with negative test results, until the quarantine period is over.
- All visitors need to wear a mask when visiting a resident and the resident needs to wear a mask as well. This is for everyone's protection.

If you have any questions, please call the Hotline at 856-679-4679 or email lgadministrator@lionsgateccrc.org.

Thank you for your continued cooperation.

Respectfully,

Susan Love, M.S., LNHA
Chief Executive Officer
