LIONS GATE

Lifestyle. Care. Community. Tradition.

April 11, 2022

Dear Lions Gate Community Members:

We wish you all a Zissen Pesach!

We are pleased to share that we have not had any residents or staff members test positive for COVID-19 this past week. We are hopeful that things will continue in this direction.

Residents of Assisted Living and Skilled Nursing will be offered the 2nd COVID-19 booster on Wednesday, April 27th. Consent forms were send via email (if we have your email address) or by US mail this past Friday. If you did not receive the consent form, please contact Kim Barclay at 856.667.3100 or kbarclay@lionsgateccrc.org. Please return the consent forms no later than Friday, April 22.

We will be celebrating the Passover holiday beginning at sundown on April 15. Just a friendly reminder that residents will be offered kosher for Passover food during the holiday. If a resident desires to consume items that are not kosher for Passover, they will be permitted to do so in their apartment/room only. Non-kosher for Passover items may not be consumed in any common areas during the holiday.

While visiting, we ask that all visitors follow the COVID-19 Prevention Practices below:

Visitors who have a positive viral test for COVID-19, symptoms of COVID-19, or currently meet the criteria for quarantine, should not enter the Community.

All visitors will continue to be screened upon entry into the Community.

Visitors are encouraged to practice good hand hygiene including the use of alcohol-based hand rub upon entry/exit into the Community.

Visitation should take place inside of the resident's room or in a visitation designated area only. ***Gathering in common areas of the Community is not permitted at this time.***

Inspiring Wellness!

Outdoor visitation is preferred when the resident and/or visitor are not fully vaccinated. However, weather conditions or a resident's health status may hinder this option. We no longer require these visits to be scheduled.

Please wear a mask and practice social distancing while going to and from the resident's room that you are visiting.

The county's COVID -19 community level of transmission is "moderate." All residents and visitors, regardless of vaccination status, should wear face coverings or masks and social distance at all times.

If the resident and their visitor(s) are fully vaccinated and the resident is not moderately or severely immunocompromised, they may choose not to wear face coverings or masks and to have physical contact.

While not recommended, residents who are on contact/droplet precautions can still receive visitors. Residents and visitors should wear a well-fitting mask and offered full PPE. Visitors will be made aware if the resident they are visiting is on contact/droplet precautions prior to their visit and made aware of the potential risks. Contact/droplet precautions are required when a resident has tested positive for COVID-19 or has been exposed to COVID-19.

Visitors are not required to be tested or vaccinated (or show proof as such) as a condition of visiting. If a visitor declines to disclose their vaccination status or is unvaccinated, the visitor should wear a mask or face covering at all times.

Resident Outings

Residents will be screened upon return to the Community for signs and symptoms of COVID-19.

If a resident/family member reports possible close contact with an individual with COVID-19 while being out of the Community, the resident will be tested for COVID-19 and placed on Transmission-Based Precautions regardless of vaccination status.

If a resident develops signs or symptoms of COVID-19 after an outing, the resident will be tested for COVID-19 and placed on Transmission-Based Precautions, regardless of vaccination status.

Unvaccinated/vaccinated residents will be tested upon return to the community if they leave frequently or for a prolonged length of time, such as over 24 hours.

Residents who are fully vaccinated are not required to be quarantined at this time, provided they are not showing signs and symptoms of COVID-19 or have not been exposed to someone with signs and symptoms of COVID-19 or to someone who has tested positive for COVID-19.
